

## HCM4

### DHAS 'Strap On' Temperature Sensors

The HCM4 is the only Thermal Heat Meter that can uniquely use strap on sensors and **fully** retain operational accuracy \*

#### HCM4 DHAS 'Strap On' sensors

- Reduce installation time by over 80%
- Reduces the chance of leaks
- Ensures that no pressure drops occur in the pipe work due to pockets inserted
- Idea in retro fit applications
- **EASE OF INSTALLATION \*\*\*\***

fig1 HCM4 DHAS 'Strap On' sensor -- On pipe

\* Installation recommendation, the pipe work and sensors are covered with a minimum of 1" / 25mm of insulation
